

**Leverage the power of speed
without sacrificing the quality of your labels.
Express service never looked so good.**

QuickTurn Service

Succeeding in today's market requires taking advantage of every opportunity. LGI's QuickTurn Service provides a convenient, low-cost option for your product labeling needs. Whether it's quality prototypes, preproduction samples or a priority project turned around quickly, LGI stands ready to expedite your order through the printing process without compromising quality or service.

Quality & speed without the sacrifices

You no longer have to sacrifice flexibility and quality for speed and cost savings. LGI's digital work-flow takes advantage of leading edge technology eliminating the need for time consuming set up and costly dies. The result, high definition imaging with rich, vibrant color turned quickly at a fraction of the cost.

Custom construction options

If your needs require specialized materials and processing, LGI will work with you to efficiently tailor your order allowing you to leverage the same cost and time saving elements of the standard QuickTurn Service. LGI's QuickTurn Service is uniquely designed to respond in an efficient yet flexible way to your urgent business needs.

Convenient express service

Putting LGI's QuickTurn Service to work for you is easy. Simply prepare your artwork, choose a label material, then place your order. Standard orders will be processed and shipped within three business days or expedite your order to next day turn-around for an even faster delivery. Refer to the reverse side for processing guidelines or call one of our knowledgeable customer service representatives to get your order started today!
